

“The shortest path to improved marketing effectiveness, improved lead volume, increased conversion rate and low attrition is via marketing and sales data management.” - Glenn Coward / Founder CS

Oracle Commerce Cloud® and Oracle Marketing Cloud

Put it Forward® is the solution that Oracle Marketing Cloud users look to for help with effective commerce integration with Oracle Commerce Cloud®. This lets a marketer leverage the most current customer data to engage on a 1:1 level.

Common Scenarios:

- Real time cross channel re-targeting campaigns between marketing automation systems including Oracle Eloqua® and Oracle Responsys®
- Develop more personalized campaigns for higher conversion rates
- Gain increased insight by having a complete view of customer data across marketing and commerce
- Deliver a consistent brand message by crossing the silos of information
- Increase up-sell and cross sell by understanding a customers preferences
- Increase conversion rates with a deeper understanding of your customers

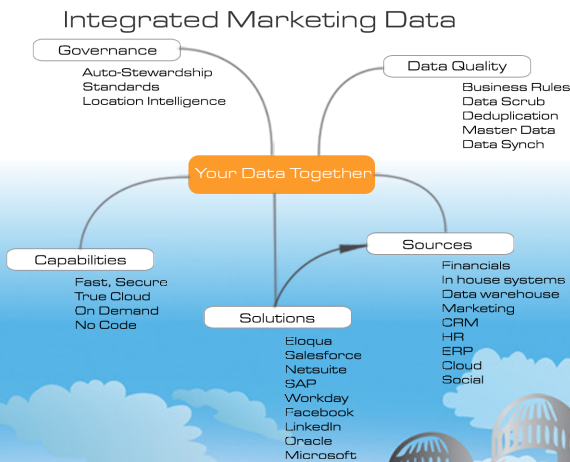

Oracle Commerce Cloud® and Oracle Marketing Cloud Integration

Put it Forward® enables the rapid connection and collaboration of business systems through on demand technology.

Designed for the marketing analyst, evangelist or operations specialist, Put it Forward's® “No Code” graphical experience accelerates and simplifies the ability to work with data.

Extend beyond connecting into operations governance, data quality and customer life cycle management. All within the same

Pre-Built Connections from Put it Forward® enable Oracle Marketing Cloud users to rapidly connect to other systems such as Cvent®, Adobe®, Salesforce®, SAP®, Microsoft Dynamics®, Netsuite® and many more. Helping improve operations, increase data quality and minimize IT costs while enabling their goal of having a deeper more meaningful customer experience.
