

“The shortest path to improved marketing effectiveness, improved lead volume, increased conversion rate and low attrition is via marketing and sales data management.” - Glenn Coward / Founder CS

Better Leads - Better Contacts

Put it Forward® is the solution that Oracle Marketing Cloud users look for help developing effective lead life cycle management through Salesforce Steelbrick®. This lets a user keep both sales and the customer in the conversation while sharpening purchase based campaign messaging.

Common Scenarios:

- Enrich contacts in Salesforce Steelbrick® with campaign information from Eloqua®
- Connect content from Oracle® directly into the CPQ processes
- Shorten the time between lead to order
- Cycle contacts back into leads if not ready yet for ordering
- Enhance forecasting models and reporting with deeper views of your lead universe
- Create a 360 degree view of customer and expand the customer value definition
- Data analysis to determine effective sales behaviors and close rates driven by marketing events
- Create exposure across the customer life-cycle not just funnel development

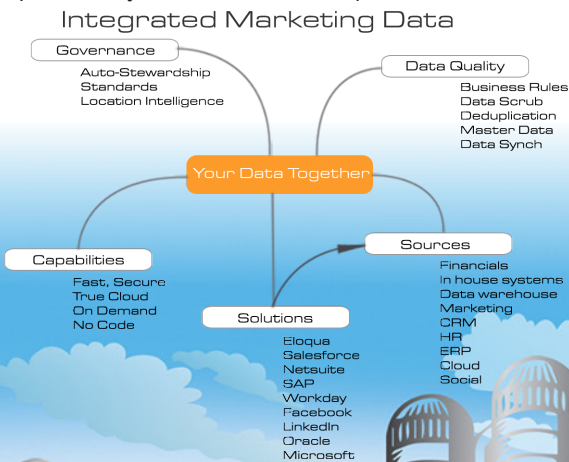

Eloqua® and Salesforce Steelbrick® Simplified

Put it Forward® enables the rapid connection and collaboration of business systems through on demand technology.

Designed for the marketing analyst, evangelist or operations specialist, Put it Forward's® “No Code” graphical experience accelerates and simplifies the ability to work with data.

Extend beyond connecting into operations governance, data quality and customer life cycle management. All within the same application.

Pre-Built Connections from Put it Forward® enable Oracle Eloqua® users to rapidly connect to other systems such as Twitter®, Salesforce Steelbrick®, SAP®, Microsoft Dynamics®, Netsuite® and many more. Helping improve operations, increase data quality and minimize IT costs while enabling their goal of having a deeper more meaningful customer
